It is all systems go in the early years!

Wow, things are really happening around the school. Year one reading groups are off and running! It sounds a little bit like the Melbourne Cup – where everyone stops! The Prep students are busy using their new resources in Math activities. As all systems are go, I wish to acknowledge the teachers for their dedication and commitment to the students. “Thank You” also to our army of volunteer parents who assist with the reading groups around the school. A great start to the school year!
