The Year of Planning - 2012

This year our school community has embarked on developing a business plan for the school. The School Board, with the help of a parental working party, have recently participated in a Strengths, Weakness, Opportunities and Threats known as a SWOT analysis process. Each group successfully worked through the school objectives, sharing their thoughts, experiences and insights as they explored all aspects of the school. It is anticipated that the results from the working party will be revealed in the coming months. My sincere thanks to all the parents who assisted us through this initial process. Stay tuned for more updates as we journey together for a brighter future.
